

Ensure Students are Really Career-READY

Fast + Focused Futures

Career education programs at the 12 community colleges in the Inland Empire/Desert region are helping students **earn a better living and make stronger career connections.**

Let's help students earn a degree, debt-free — while pumping up their paychecks by an impressive +45 percent!*

*According to the Journal of Human Resources, associate degree-holders in CTE programs earn about 45 percent more in every paycheck than those with just a high school diploma.

Outstanding Support Across 12 Colleges

When you send your students to the region's community colleges, you're connecting them to dedicated college and career support from application to graduation, including career and academic counseling, financial aid, and more.

Ensure your students have everything they need to navigate college, discover their career path, and land their dream job.

"Hire" Education with Flexible + Fast Programs

The region's community colleges offer hundreds of low-cost programs that flex to students' busy lives and lead directly to high-demand, high-paying careers.

Ready, Set, Career!

Students who complete associate degrees earn more than **double** their pre-degree earnings after two years in the workforce.

"[My College] gave me the resources, the tutoring, the financial help, and the support I needed to succeed."
